## FLAMES ENDANGER THOUSANDS OF LIVES AS BLAZE SWEEPS CONVENTION HALL

TOKIO, Oct. 5.—Fire this afternoon completely destroyed the big hall in which the world's Sunday school convention was to have held its first session tonight. It is said that there were no casualties.

The fire, which resulted

from defective electric wiring, started at 3:50 o'clock, when the lights on the dome bearing the inscription "I am the Light of the World," were turned on. The building which had been constructed of light material, covered with stucco, was destroyed within a few

minutes. A large number of delegates were inside the building when the correspondent left it two minutes before the flames started.

The cry of "fire" was immediately raised by those inside and echoed by thousands

of persons approaching the central railway station adjacent. Almost immediately the entire structure was wrapped in flames with people streaming from the exits. Within 10 minutes the building had been levelled. So great was the heat

that it would have been impossible to approach the building for work of rescue.

Some of the delegates who had been inside the hall said they did not know whether all those there when the fire started had made their escape.

Charles T. Raines of New York asserted that he kept the delegates from overcrowding the exits. Personally he was of the belief that all of them had reached safety.

Before the fire started the correspondent found the chor-

us composed of Japanese and foreigners rehearsing under the direction of Professor Augustus Smith of Boston, while delegates were coming and going preparatory to the opening of the evening session. Auto Repair Class at

## GENERAL DIAZ REFUSES TO DESERT HIS NATIVE LAND

### UNDER ARREST AT VERA CRUZ

VERA CRUZ, Mexico, Oct. 5.—General Felix Diaz arrived here tonight from Tlapacoyan, virtually the prisoner of General Guadalupe Sanchez. An effort will be made, it is said, to convince Diaz that he should leave the country. Provisional President de la Huerta having declared public opinion would not permit him to remain as a free citizen because of distrust of his attitude toward the government. Diaz, it is understood, will refuse to leave the country of his own volition, but will not resist expulsion.

#### Treated With Respect

General Diaz, who is a nephew of former President Porfirio Diaz, was calm when brought here. He is in custody in the hotel occupied by General Sanchez and is being treated with respect. Generals Luis Acosta and Silvino Diaz, with thirty men of General Diaz's following, who are with him in the Hacienda Jobo, where General Diaz has been staying since the commencement of his negotiations with General Sanchez, concerning an agreement with the administration, accompanied their chief to Vera Cruz, but they are not prisoners.

#### Receives Envoy Calmly

General Diaz was arrested by General Mireles. Apparently there was some agreement by which Diaz was to surrender himself, for when General Mireles, accompanied by Colonel Vasquez Milano, presented himself at the Hacienda Jobo he was received calmly and without surprise. General Mireles informed Diaz that General Sanchez desired him to go to Vera Cruz to continue the negotiations, as it was impossible for Diaz to stay longer in his hacienda.

#### Presence Encourages Rebels

Diaz replied that he could not go to Vera Cruz because of pending business transactions. He was told General Mireles had an order for his arrest, the government having declared it could not allow him to remain in the zone as his presence encouraged the leaders of the Diaz troops to refuse to obey the orders of the government which already pays the salaries of these troops but finds it impossible to organize them into a government force because of the attitude of their leaders. Peace in the region could not be guaranteed with Diaz there, General Mireles said. Diaz said he would not offer resistance and was willing to surrender, but declared he would not accept the terms of the government.

## GRAIN PRICES TAKE DOWNWARD SMASH ON CHICAGO MARKET

CHICAGO, Oct. 5.—Wheat and corn today repeated yesterday's tendencies and declined three to six cents a bushel on the Chicago market, barley and rye also declined but to no great extent.

Coincident with the wheat reductions, came an announcement from Minneapolis of further reductions in the price of flour, new quotations being \$10.90 to \$11.00 a barrel in carload lots. Corn declines carried down the price of hogs—"finished corn"—and the top was \$15.85 with the average near \$15.00.

December delivery of wheat closed today at \$1.89½ compared with yesterday's \$1.95, and December corn ended at 84½ cents, compared with 8½ cents yesterday and \$1.27½ a year ago. ## 1 DEAD; 4 DYING AS RESULT OF BIG GAS WELL EXPLOSION

CHEYENNE, Wyo., Oct. 5.—One man is dead, four are dying and flames unchecked are shooting 250 feet into the air from the Midwest-Oil gas well 55 miles southwest of Basin, Wyoming, as the result of a spark caused by friction of the drilling apparatus at the wells, Sunday.

The dead man is a driller named Kramer. Joe Henry, of Basin, a tool dresser, and three other unidentified men are dying from burns. Physicians were sent from Basin because of impossibility of transporting the injured men overland from the Buffalo basin oil fields. There is no communication with the camp by telephone.

The flames from the well can be seen for a hundred miles across the country. It is said to be the largest gas well yet found. The derrick was destroyed.

## WILSON'S DENIAL ROUSES SPENCER

ST. LOUIS, Oct. 5.—United States Senator Selden P. Spencer late today replied to President Wilson's denial that he had promised American military assistance to Rumania and Serbia in event of invasion of those countries. The president's denial was provoked by a recent address of Mr. Spencer in which the senator, in effect, declared the president had made such a promise. The senator's reply in part follows:

"I beg to acknowledge receipt of your telegram of October 5 in which you deny that you promised American military aid to Rumanians and Serbs and that the previous denial which Mr. J. P. Tumulty has made was at your request. The statement of yours to which I have often referred to in my address was the statement in the stenographic notes of the eighth plenary session of the peace conference in which you are reported to have said to Premier Bratianu of Rumania as follows:

#### Quotes From Record

"You must not forget that it is force that is the final guaranty of the public peace. If the world is again troubled the United States will send to this side of the ocean their army and their fleet."

"The statement was made upon the floor of the senate on February 2, 1920, by Senator Reed and so far as I have learned, has never been denied until now. It has been widely circulated over the United States. If you did not make that statement to Premier Bratianu, I should be much indebted if you will be good enough to inform me."

## RUSSIAN REVOLT NOW TERRORIZING SOVIETS

LONDON, Oct. 5.—Further reports of disorganization and revolt in soviet Russia have been secured by Reuters, from a "reliable person who has just crossed the frontier into Finland."

Reuters informant says the red army is in a state of disorganization that the harvest is exceptionally bad and that revolts have broken out in Siberia, Tompov and near Samara. There is great unrest among the workmen.

The Bolsheviks are very anxious about General Wrangel's success in the south and the latest call of Leon Trotsky, Bolshevik minister of war, is "for the liquidation of the southern front before winter."

The Bolsheviks, say the advisers, realize that this winter will be the hardest they have experienced and are very anxious about the whole situation.

## J. S. DOUGLAS ON TRAIL OF THOSE WHO EVADE LAWS

PRESCOTT, Ariz., Oct. 5.—An attempt to evade the law prohibiting the sale of county bonds except for par was alleged by James S. Douglas, mine operator, and J. H. Robinson, city clerk of Prescott, in a petition today to the superior court to issue an order restraining the Yavapai county board of supervisors and the county highway commission from proceeding with the sale of the bonds under an agreement entered into yesterday. The court set the application for hearing Oct. 11.

#### Getting Around Law

Under the agreement between the supervisors and the bond buyers' representatives, it was said the county would pay \$45,000 or 3 per cent of the face value of the \$1,500,000 bond issue, to the bond buyers out of the general fund. At the same time the highway commission agreed to employ a Los Angeles engineering firm to do supervisory work in the construction of highways, paying \$105,000 or 7 per cent of the bond issue. Thus, according to the contention of
